Equipment:

Telescoping ladder - \$110.00

Production total: 28 hours

Installation and maintenance:

For the installation of the new mural I will first prepare the wall for a new coat of paint. This will include washing and scrapping any chipped paint or dirt off of the wall. After preparing the wall and installing the mural I will place a UV and graffiti clear protective coat to the mural. This will provide a protective layer to the mural allowing for an easier path to maintenance for years to come. Living in the community of Noblesville I frequently drive past this wall and will easily be able to take care of the finish work of art.
