Successful Offeror: Mainscape, Inc. – 198,295.00

Basis of Award

The proposals submitted by the four companies were reviewed for price, value, alignment with the goals and specifications of the RFP, and long term maintenance considerations.

Additionally, the street commissioner contacted and verified references that the companies provided. For Mainscape, we verified references of the City of Carmel, Lilly, Allison Transmission and Anthem. All of the references gave Mainscape excellent ratings.

Based on all of these considerations, we determined that Mainscape was the best option and selected them to provide the roundabout beautification services.
