## Big Tree List

This project started out as an update of the Noblesville Century Trees list from the neighborhood just north of Conner Street, the Olde City North. The goal is to expand this list of large trees in our community to promote both excitement and appreciation of these trees from our antiquity and the beauty they continue to display to this day. Trees may be nominated for addition to this list, if they meet the minimum criteria of at least 65 feet tall or a minimum trunk DBH (diameter at breast height) of at least 35 inches. Please send nominated tree address information to the City of Noblesville Urban Forester John Easley at [JEasley@noblesville.in.us](mailto:JEasley@noblesville.in.us).
